MEMO TO: Edward Green, Chief Engineer
FROM: CITY PLAN COMMISSION
RE: Vacation of Webster St., between Hollis Lane and
Pursley Drive.

We have no objection to the vacation of the above described street for the following reasons:

1. Webster Street south of Hollis Lane does not line up with the section proposed for vacation.
2. There are no lots fronting on the street proposed for vacation and as such would probably never be improved since improvement assessments would be impractical.
3. In line with the thinking of recent years, a residential street should not be established so as to encourage movement of through traffic.

Hoping that this information will be of some help to you.

Sincerely,

CITY PLAN COMMISSION

TRAFFIC ENGINEERING DEPARTMENT

Report No. _____ Sheet _____ of _____ Date July 7. 1950

To: Edward Green, Administrative Engineer - Fort Wayne, Indiana

Subject: Vacation - Webster Street from Pursley Drive to Hollis Lane
Board of Public Works No. 274.

LJB
cc. 7/7/50

Please be advised that the undersigned has reviewed the subject named above.

Inasmuch as Webster Street has been permitted to be platted to the south of Hollis Lane without direct continuity of Webster Street to the north and south of Hollis Lane this department does not object to the vacation of Webster Street as stated in Board of Public Works number 274.

However, it is suggested that should Webster Street be vacated as proposed that Webster Street south of Hollis Lane be renamed. This action would reduce confusion on the part of the motorist with a destination on Webster Street south of Hollis Lane.

Respectfully yours,

James T. White
